

# A DESTINATION FOR DISCOVERY

Washoe County Library System 2007

### **In its role as a Destination for Discovery, the Library System will:**

- Become a cultural center rather than just a place for books and reading
- Shift from a research place to a gathering place
- Be nimble in responding to needs and smarter in using resources
- Become a catalyst for creating community
- Serve in the role of informational change agent
- Offer more patron self service features
- Ensure that services and facilities are convenient and accessible to all

### **Farewell Message from Library Director Nancy Cummings**

On January 9, 1995, I began my first day as director of the Washoe County Library System. January 4, 2008, will be my last day in that position.

To say it has been rewarding, challenging, occasionally frustrating, fulfilling and enriching touches upon the many facets of my experience.

It's exciting stuff to build new libraries, remodel existing ones, to put a mobile fleet on the road. It has also been exciting working with library managers and staff to create an inclusive organization that offers employees the opportunity to shape the mission and vision for the system.

I've appreciated being able to represent the library in many community endeavors. It is my hope that this representation contributed to the health and well being of our area.

I appreciate Library Board members, past and present, who have committed their time and energy to maintain the highest quality library service for our citizens.

I am excited about the library's future, and our new vision that the library is truly a Destination for Discovery. I am confident library staff will ensure this vision becomes a reality and will continue to render outstanding customer service. I take my leave knowing that the Library System is in good hands.

Nancy Cummings
